M-TECH

Who we are

Headquartered in the Eastern Seaboard Industrial Estate of Rayong Province, Thailand,

Our enterprise excels in the production, supply, and international distribution of an extensive selection of plastic containers.

Our offerings encompass a versatile range of solutions for food and bakery packaging, as well as specialized containers for agricultural use.

Quality Policy, Company Goals

To maintain good manufacturing practices we take care in cleanliness and other requirements according to GHP & BRC standard.

We are quality focused and committed to satisfying the needs of packaging in many industries with our superior quality products.

Quality Policy, Company Goals

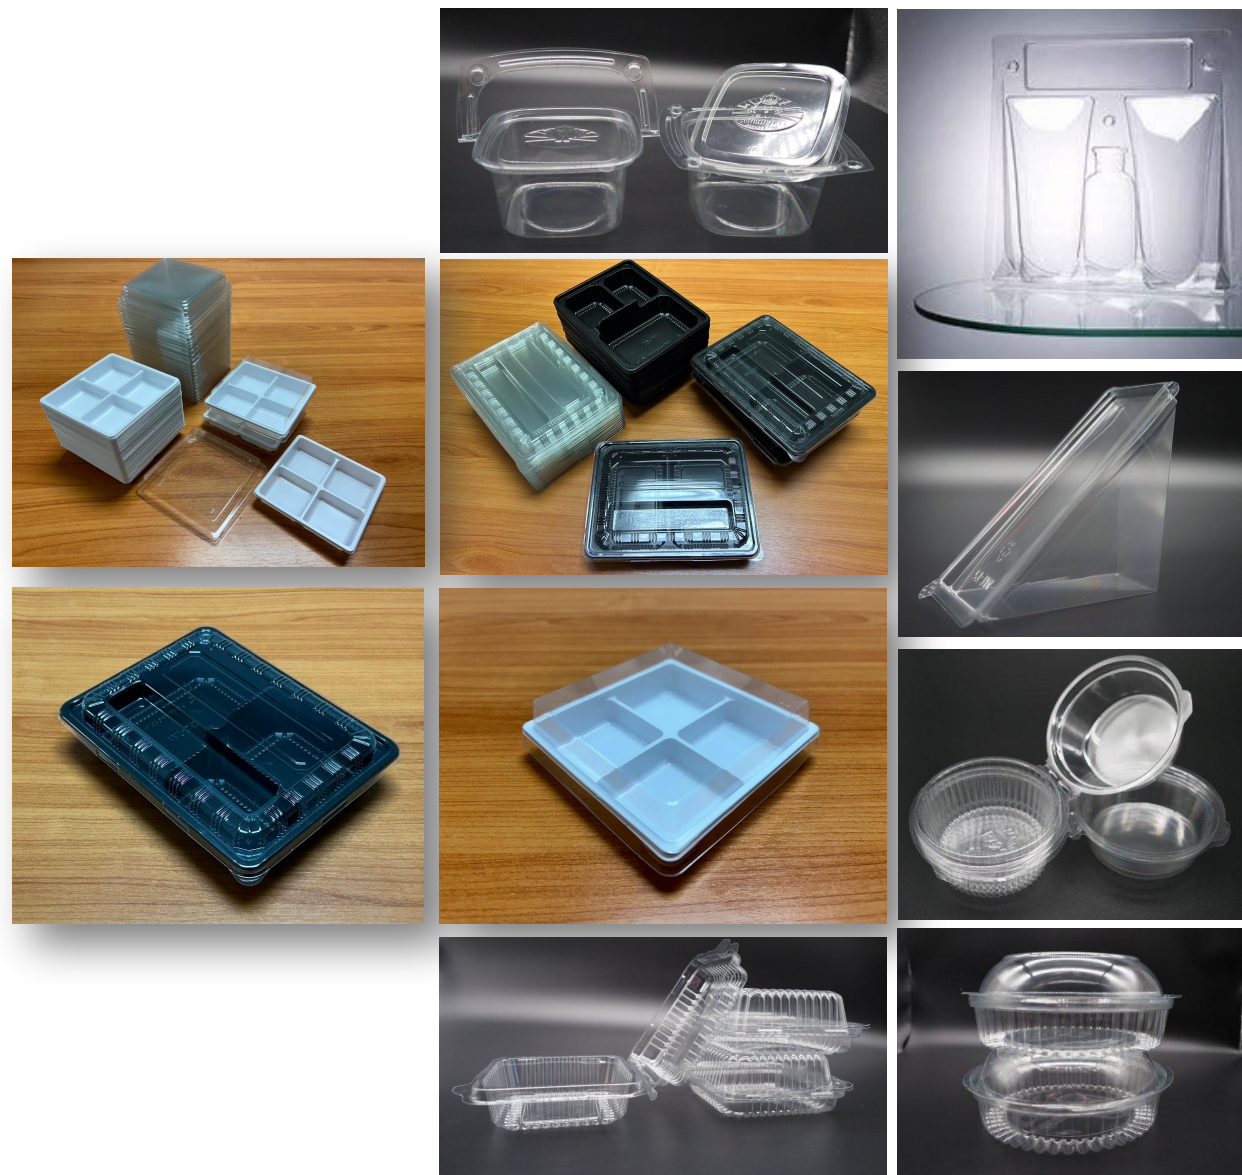

With the efforts of our experts and other employees, we serve our clients well and have gained their loyalty.

Our skilled workforce, consisting of fifty employees, includes a team of designers and engineers with three production machines boasting a capacity of 60 tons. MTech Product also has a warehousing facility onsite.

Our Products

M-Tech manufactures containers using high-quality APET or BOPS plastics. BOPS, known for its safety in heating food and beverages, also aligns with environmental standards. Our team customizes container designs to meet specific size requirements, complete with detailed drawings. Additionally, our lids ensure a secure fit, making our containers leak-resistant.

OUR STRENGTHS

We produce various types of food packaging with [bioplastics](#), [A-PET](#), [PP](#).

Our company offers product design solutions

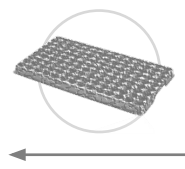

Products and Processes are
Certified by CODEX GMP

High-Quality Processing

M-Tech, formerly focused on thermoforming vacuum processes for automotive and electronic parts, has successfully transitioned to food packaging. We now hold GMP certification and maintain a standardized production process.

Forming Machine

Our company prioritizes cleanliness, safety and environmental care. We utilize precise and efficient machinery to produce high demand products for the food packaging industry.

Capacity
80,000 – 100,000
shots/month

Logistics & Service

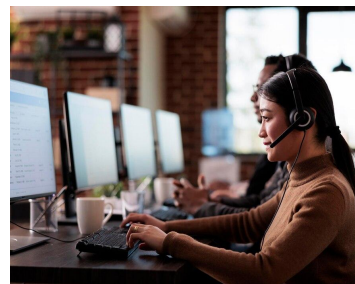

FIFO System Management:

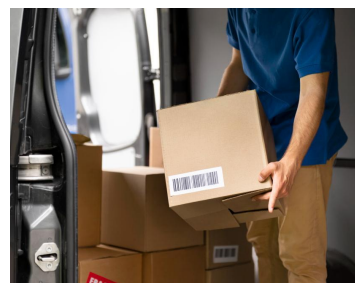

We adhere to a stringent First-In, First-Out inventory control system to ensure product freshness and optimal stock rotation.
